About NMDC Energy

NMDC Energy (ADX: NMDCENR) was established in 1973. Together with its subsidiaries, it provides engineering, procurement, and construction (EPC) services to both offshore and onshore clients in the energy industry.

NMDC Energy boasts a robust track record, have executed over 1,200 projects to date. This extensive portfolio includes approximately 1,360 installed structures, around 8,000 kilometers of laid pipelines (both onshore and offshore), and approximately 2,000 kilometers of marine cables. It primarily operates in the UAE, Saudi Arabia, India, Kuwait, and Taiwan.

NMDC Energy operates four fabrication yards namely: Mussafah Yard, ICAD4 Yard, NE Modules Fabrication Yard and the Ras Al Khair Fabrication Yard in Saudi Arabia. The Mussafah Yard is recognized as one of the largest fabrication yards in the GCC region. The company also maintains a significant fleet of 18 offshore vessels, comprising heavy lift and pipelay vessels, pipelay barges, jack-up barges, cable laying barges, anchor handling tugs, and transportation cargo barges.

The company has a project backlog of AED 49.9 billion as of June 2025, encompassing a diverse portfolio of high-value onshore and offshore projects in the market where it operates.

NMDC Energy is a majority-owned subsidiary of NMDC Group.

NMDC Group Mission, Vision, and Values

Our **vision** is to deliver innovative solutions shaping the future.

At NMDC Group, our **mission** is threefold:

- We leverage the talent and experience of our people and provide opportunities to build successful and rewarding careers.
- We serve our clients through delivering EPC solutions and beyond, that are environmentally conscious, safe and cost efficient.
- We generate exceptional returns for our shareholders.

Our organizational **values** unite and inspire us:
Knowledge – Accountability – Morality – Alliance – Leadership

Environmental, Social & Governance (ESG) Objectives

As a leader in the energy EPC industry, NMDC Energy plays a vital role in the transition to clean energy. Through the formation of strategic partnerships and the development of innovative clean energy and Carbon Capture and Storage (CCS) projects, NMDC Energy contributes to the achievement of the UAE's Sustainable Development Goals and to global decarbonization efforts.

Its diverse portfolio includes projects such as the UAE's first green hydrogen facility and an offshore wind farm in Taiwan, underscoring its commitment to large-scale renewable energy infrastructure development. Furthermore, NMDC Energy actively participates in community-driven environmental initiatives, taking the lead in promoting biodiversity.
